Skills

Javascript, Typescript, SQL, Postgres, Git, APIs, HTML, CSS, NestJs, NodeJs, MongoDB, Mongoose, ExpressJS, Docker, Python, FastAPI, Flask, Redis, React, Superbase, AI-automation

Projects

E-commerce App

<https://github.com/Lecksikerm/E-commerce-Project>

AUG 2025 - SEPT 2025

- Built and deployed a secure e-commerce API backend with **NestJS**, supporting real-time order processing and multi-role user access.
- Integrated **JWT-based authentication**, **transaction endpoints**, and **data validation** using class validators for seamless functionality.
- Enhanced application performance by structuring reusable services and leveraging **TypeORM relationships** to manage complex data models.

PayGo Fintech Application

DEC 2025 - JAN 2026

<https://paygo96.netlify.app/>

- Built a full-stack fintech platform that enables secure user onboarding with OTP verification, wallet creation, and encrypted authentication powered by JWT and bcrypt.
- Engineered seamless wallet funding using Paystack, user-to-user transfers with PIN validation, and real-time transaction tracking with optimized MongoDB models.
- Delivered a polished React/Tailwind interface with cloud-hosted profile uploads, deployed across Netlify and Render for a fast, production-ready financial experience.

AI_SaaS_Chatbot

Feb 2026 - Mar 2026

<https://lecksibot.vercel.app>

- Developed a **full-stack AI SaaS chatbot platform** similar to ChatGPT using **Python (FastAPI)** for the backend and **React.js with Tailwind CSS** for the frontend, enabling users to interact with an AI assistant powered by the **Gemini API**.
- Implemented **secure user authentication (signup/login)** and persistent chat storage, allowing users to **save conversations and continue chats later**, improving user experience and session continuity.
- Integrated **Paystack payment processing** to implement a **usage-based monetization system**, allowing users to increase their AI chat limits through subscription or payment upgrades.

Work Experience

Trailblazer Islamic School

SEPT 2018 - JULY 2025

Science Subject Teacher

- Taught Mathematics, Chemistry, and Physics to junior and senior secondary students, fostering curiosity and strong analytical skills.

- Conducted laboratory demonstrations and experiments, ensuring adherence to safety procedures and hands-on understanding of scientific concepts.

Education

Osun State College of Technology Esa-Oke
HND, Civil Engineering

JAN 2021 - OCT 2023

ALX Professional Foundation
Professional Development Skills

AUG 2025 – DEC 2025
