PROFESSIONAL SUMMARY

Results-driven Backend Developer with hands-on experience in building scalable and efficient server-side applications using Node.js, NestJS, Python (FastAPI), PostgreSQL, and NoSQL databases. Strong understanding of API design, authentication systems, and database architecture. Adept at problem-solving and collaborating within cross-functional teams to deliver high-quality software solutions.

TECHNICAL SKILLS

- **Backend Development:** Node.js, NestJS, FastAPI
 - **Databases:** PostgreSQL, MongoDB, NoSQL
 - **Version Control:** Git, GitHub
 - **API Development:** RESTful APIs, Authentication (JWT)
 - **Tools & Technologies:** Docker (basic), Postman, Supabase
 - **Programming Languages:** JavaScript, Python
-

PROFESSIONAL EXPERIENCE

Backend Developer

Self-Employed / Freelance | 2025 – Present

- Designed and developed scalable backend systems using Node.js and NestJS.
- Built RESTful APIs with secure authentication and authorization mechanisms.
- Integrated PostgreSQL and NoSQL databases for efficient data management.

- Developed and maintained microservices-based architectures for modular applications.
- Collaborated with frontend developers to ensure seamless API integration.
- Optimized application performance and handled debugging and issue resolution.

Fintech Project (PayGo)

Full-Stack Developer | 2025 – Present

- Developed a fintech web application for digital payments and transactions.
- Implemented secure authentication and user account management.
- Built and integrated backend APIs for transaction processing and data handling.
- Ensured responsive frontend integration with backend services.
- Deployed and maintained a live production application.
