Skills

Javascript, Typescript, SQL, Postgres, Git, APIs, HTML, CSS, NestJs, NodeJs, MongoDB, Mongoose, ExpressJS, C, Docker, Python, Flask, Redis, Docker, React, Nextjs

Projects

Job Board Platform

DEC 2025 - FEB 2026

<https://joblead.netlify.app/>

- Built a full-stack job board platform supporting **multi-role access (Admin, Employer, Candidate)** with role-based authorization.
- Built **real-time application workflows using Socket.io**, enabling instant employer notifications and status updates.
- Designed scalable backend services with **Node.js, Express, and MongoDB**, including resume handling via Cloudinary.

PayGo Fintech Application

DEC 2025 – JAN 2026

<https://paygo96.netlify.app/>

- Developed a **secure wallet system** with OTP verification, JWT authentication, and encrypted user data handling.
- Integrated **Paystack for payment processing**, enabling wallet funding and seamless peer-to-peer transfers.
- Engineered efficient transaction logic with **optimized MongoDB schemas** and real-time balance tracking.

AI SaaS Chatbot Platform

FEB 2026 – MAR 2026

<https://lecksibot.vercel.app/>

- Built an AI chatbot platform similar to ChatGPT application using **FastAPI and React**, powered by Gemini API.
- Implemented **persistent chat storage and authentication**, allowing users to resume conversations seamlessly.
- Designed a **monetization system with Paystack**, enabling subscription-based access to AI usage.

Work Experience

Trailblazer Islamic School

SEPT 2022 - JUL 2024

Science Subject Teacher

- Taught Mathematics, Chemistry, and Physics to junior and senior secondary students, fostering curiosity and strong analytical skills.
- Conducted laboratory demonstrations and experiments, ensuring adherence to safety procedures and hands-on understanding of scientific concepts.

Education

ALX Professional Foundation

AUG 2025 – DEC 2025

Professional Development Skills

Osun State College of Technology Esa-Oke
HND, Civil Engineering

JAN 2021 - OCT 2023
